

Success Criteria

I have tested my numeracy skills

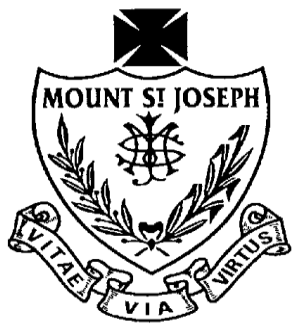

I have developed my numeracy skills

I have developed my numeracy skills and identified what I need to do to improve

**Learning Objective:
Develop Fluency in Numeracy**

Complete the short Numeracy Quiz to be in with a chance of winning a Prize!

Key Words: Numeracy, Addition, Subtraction, Multiplication, Division, Problem Solving

Success Criteria

I have tested my numeracy skills

I have developed my numeracy skills

I have developed my numeracy skills and identified what I need to do to improve

**Learning Objective:
Develop Fluency in Numeracy**

Q1. Calculate $89 - 94 + 117$

Key Words: Numeracy, Addition, Subtraction, Multiplication, Division, Problem Solving

Success Criteria

I have tested my numeracy skills

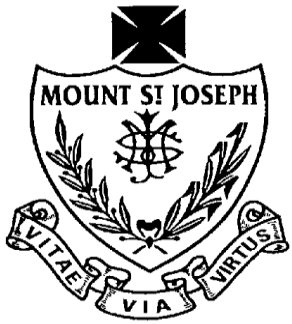

I have developed my numeracy skills

I have developed my numeracy skills and identified what I need to do to improve

**Learning Objective:
Develop Fluency in Numeracy**

Q2. Calculate $\frac{74 - 29}{5}$

Key Words: Numeracy, Addition, Subtraction, Multiplication, Division, Problem Solving

Success Criteria

I have tested my numeracy skills

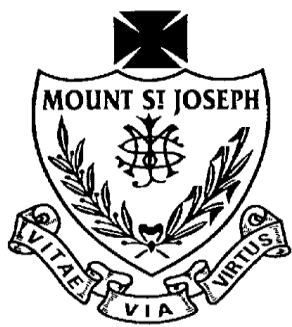

I have developed my numeracy skills

I have developed my numeracy skills and identified what I need to do to improve

**Learning Objective:
Develop Fluency in Numeracy**

Q3. Calculate 18×17

Key Words: Numeracy, Addition, Subtraction, Multiplication, Division, Problem Solving

Success Criteria

I have tested my numeracy skills

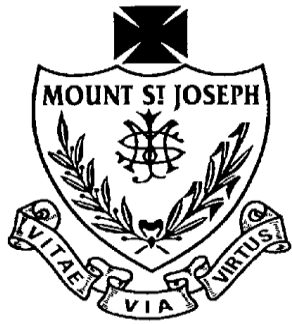

I have developed my numeracy skills

I have developed my numeracy skills and identified what I need to do to improve

**Learning Objective:
Develop Fluency in Numeracy**

Q4. Calculate 1.5×12

Key Words: Numeracy, Addition, Subtraction, Multiplication, Division, Problem Solving

Success Criteria

I have tested my numeracy skills

I have developed my numeracy skills

I have developed my numeracy skills and identified what I need to do to improve

**Learning Objective:
Develop Fluency in Numeracy**

Q5. Calculate 39 divided by 6

Key Words: Numeracy, Addition, Subtraction, Multiplication, Division, Problem Solving

Success Criteria

I have tested my numeracy skills

I have developed my numeracy skills

I have developed my numeracy skills and identified what I need to do to improve

**Learning Objective:
Develop Fluency in Numeracy**

Q6. George is making spaghetti, the recipe says 750 grams of pasta will feed 5 people. How much pasta does he need for 4 people?

Key Words: Numeracy, Addition, Subtraction, Multiplication, Division, Problem Solving

Success Criteria

I have tested my numeracy skills

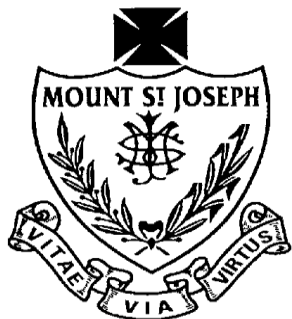

I have developed my numeracy skills

I have developed my numeracy skills and identified what I need to do to improve

Learning Objective: Develop Fluency in Numeracy

Q7. Helen thought of a number, she multiplied it by 4, subtracted 20 and then divided by 2. His final number was 6. What number did Helen start with?

Key Words: Numeracy, Addition, Subtraction, Multiplication, Division, Problem Solving

Success Criteria

I have tested my numeracy skills

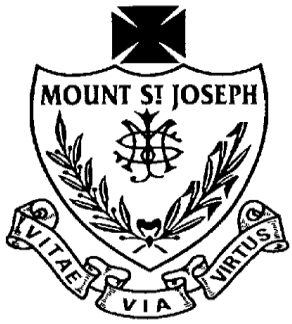

I have developed my numeracy skills

I have developed my numeracy skills and identified what I need to do to improve

Learning Objective: Develop Fluency in Numeracy

Q8. What is 3% of 1800

Key Words: Numeracy, Addition, Subtraction, Multiplication, Division, Problem Solving

Success Criteria

I have tested my numeracy skills

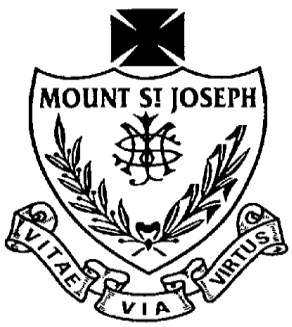

I have developed my numeracy skills

I have developed my numeracy skills and identified what I need to do to improve

Learning Objective: Develop Fluency in Numeracy

Q9. Share £132 into the ratio 2:3:7

Key Words: Numeracy, Addition, Subtraction, Multiplication, Division, Problem Solving

Success Criteria

I have tested my numeracy skills

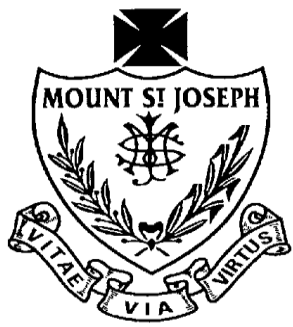

I have developed my numeracy skills

I have developed my numeracy skills and identified what I need to do to improve

Learning Objective: Develop Fluency in Numeracy

Q10. Calculate $\frac{4}{5} - \frac{2}{7}$

Key Words: Numeracy, Addition, Subtraction, Multiplication, Division, Problem Solving

Success Criteria

I have tested my numeracy skills

I have developed my numeracy skills

I have developed my numeracy skills and identified what I need to do to improve

**Learning Objective:
Develop Fluency in Numeracy**

Get ready to mark your work

Key Words: Numeracy, Addition, Subtraction, Multiplication, Division, Problem Solving

Success Criteria

I have tested my numeracy skills

I have developed my numeracy skills

I have developed my numeracy skills and identified what I need to do to improve

Learning Objective: Develop Fluency in Numeracy

Answers

1) 112

2) 9

3) 306

4) 18

5) 6.5

6) 600g

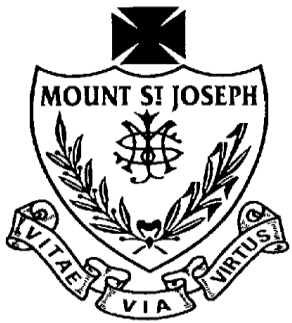

7) 8

8) 54

9) 22:33:77

10) $\frac{18}{35}$

Key Words: Numeracy, Addition, Subtraction, Multiplication, Division, Problem Solving

Success Criteria

I have tested my numeracy skills

I have developed my numeracy skills

I have developed my numeracy skills and identified what I need to do to improve

Learning Objective: Develop Fluency in Numeracy

Reflection

Think about what area of Numeracy you need to work on to be able to improve.

Try and practice this area over the next few weeks so that the ability to recall is automatic, this will help you to become fluent in Numeracy!

Key Words: Numeracy, Addition, Subtraction, Multiplication, Division, Problem Solving
